FRIDAY, MAY 17, 1901.

A. Ewing doesn't talk like a quitter.

El Reno and Mulhall are undergoing some moral sanitation.

The Sharp case at Perry will develop a strong point.

The thing to do is to push local municipal improvements.

Henry Scott has developed "hello Bill" propensities and is now a good fellow.

Of course, it's Amos Ewing really feels that way about it—well, its different.

Count Boni de Castellane has had appendicitis without making his wife pay for it.

Oklahoma City has employed a corps of deep sea divers to search for her street crossings.

Chandler has organized an oil company and intends to prod the earth. There is oil under Chandler.

Some day Guthrie will be a continuous city reaching from the Cimarron river to Oklahoma City.

Governor Jenkins' close-mouthed policy suits the public but makes the politicians fussy and colicky.

The regents of the Stillwater college should not be allowed to make bids at the registered cattle sale.

It is said that Tolstol has just completed a "problem novel," which proves that even a good man may live too long.

It is violently feared that Jim Gandy's candidacy for bill clerk secretary has taken on a case of cockle-burn poisoning.

Prophet Foster predicted this rain. He had a couple of cyclones on the bill, also, but it seems the rain dampened their ardor.

Bill Walker has declined an offer of \$8,000 to work for the government. Sly Oberlander never dreams of that way. He always accepts.

The wheat house is not a web footed animal. Neither does it take to muchintoshes. Therefore, the wheat house is among the "dead and missing."

Attorney Haward, of Oklahoma City, continues to remain sore. He now regards himself as a com-on and says little that is fit for publication.

During a bridal trip through Alaska, a Seattle pair became separated by many miles of snow covered trail. This gave rise to a rumor that there was a coldness between the couple.

El Reno wants to raise her saloon license. It should be raised. El Reno saloons are dangerous. It is said the whisky sold over there can bite holes in a copper boiler.

Mr. Schwab hands out a good line of talk, but he will never be able to give a good reason for the existence of the industrial commission. His talk on success smacks of opportunity and luck.

Eastern papers say "the drought in Oklahoma is broken at last." Oklahoma long since passed the drought era. The territory can take on more dry weather than any state in the Union and then raise enormous crops.

Alfred Rusten Boy, secretary of the Turkish legation at Washington, who volunteered advice to the Sultan on his present policy, has been recalled to Constantinople to stand trial for treason. Abdul Hamid may redeem himself in the eyes of humanity by demonstrating that the giving of unsolicited advice is a capital crime.

Bill Little is talking about love and verberates in the Perry. Enterprising. Bill Little will talk about anything.

Already frauds have been unearthed in the Kiowa country. This, however, is merely the forerunner of the slot machine opening.

The harmony between the governor's office and the secretary's office of the territory continues unaltered. For four years it wasn't that way.

Soft Korns is displaying symptoms of anxiety. At 7 o'clock his physicians announced his pulse strong on the upper deck with a series of momentous heart beats. Korn's chief ailment is Ewingitis.

Those who believe in death-bed repentances have had cold water thrown on their faith by the Rev. Dr. Harcourt's statement that it is not "the little puff of prayer sent off at the last moment by a minister that waits the soul into heaven."

The Oklahoma City Times-Journal holds that Oklahoma City "is on a boom," and that the "boom will not burst." "The Guthrie Leader does not control the situation in Oklahoma City," says the Times-Journal. The trouble down there is that the situation is not being felled properly.

Brigadier General Bell of the volunteer service, who has just returned from Manila, is quoted as saying that "one-sixth of the natives of Luzon have either been killed or have died of the dengue fever in the last two years. The loss of life by killing alone has been very great." The imperialists were never more self-satisfied than nowadays. Doubtless their satisfaction embraces the killing General Bell refers to. Slaughter by the wholesale does not tarnish the success of "our policy." Everything that has happened, you know, was inevitable.

It will certainly interest Prof. Goldwin Smith to learn that a movement is on foot to include Canada in the royal and imperial title of Edward VII. Presumably the idea is to proclaim Edward king of Canada as well as of the United Kingdom. Prof. Smith has already observed that the colonial influence upon Britain is to exalt the prestige of the crown, since it is the crown that forms the link between the colonies and the rest of the empire. The logical development of this influence would seem to be rewarding Canada with a share of royalty to be all her own. Edward VII. would undoubtedly be pleased to become formally and officially king of all the Canadians. He ought to come over to Ottawa and be crowned.

Giant Oaks' Concert.
The Grand National Entertainment company, Prof. H. S. Nikkel, president, in connection with home concert, will appear at the Capital City Business College hall, under the auspices of the Giant Oaks, Capital Lodge No. 1, Friday evening, May 17. Battle of Manila, Battle of Santiago, Battle of San Juan Hill, Paris Exposition, and a hundred other places of importance will be shown by the use of Edison's Projecting Kinetoscope. There will be moving pictures of the Galveston flood, thrilling train scenes, Greater New York fire department, battle ships in action, "Throw Out the Life Line," etc., etc. Admission, 25c. All tickets bought before the doors open will entitle holder to a reserved seat free. Children under twelve, 15c. Doors open at 7:30, performance at 8:30.

Selected Head Physician.
The representatives of the Modern Woodmen of America society for Oklahoma and Indian territory, met here last night and selected a candidate for head physician of the order for these territories. Dr. Houseworth, was chosen. This office has been held by the physician of the Kansas jurisdiction, before the two territories were separate jurisdictions.

NURSING MOTHERS
want Scott's emulsion of cod-liver oil, almost without exception. So before they get to be mothers, eating for two is no small tax, continued for months.

The emulsion not only is food itself; it gives strength for digesting usual food.

If the milk is scanty or poor, the emulsion increases supply and enriches quality.

Well, you've a little to try if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

"A Bright Little Boy"

Would be sure of a welcome in almost any home. But what a welcome he would have in a home where the hope of children had been extinguished. What a welcome this particular "bright little boy" did have in such a home, may be judged by the closing paragraph of his mother's letter, given below. There is no room for the whole letter, which recounts a story of fifteen years of suffering and a perfect cure by the use of three bottles of Dr. Pierce's Favorite Prescription, two bottles of "Golden Medical Discovery," and some of the "Pellies."

In many instances childlessness is the result of conditions which are curable. It has often happened that when "Favorite Prescription" has cured a woman of female weakness and the nervous condition attending it, her return to health is signaled by the birth of her first child. "Favorite Prescription" makes weak women strong, sick women well.

"I cannot tell half that Dr. Pierce's medicine has done for me," writes Mrs. T. A. Ragan, of North Wausau, Wis., N. C. "It will do all that is claimed for it—prevent miscarriage and render childbirth easy. It has given me a bright little boy, and I would not have had him had it not been for your wonderful medicine. I can not say too much in praise of it; I think it is worth its weight in gold. I thank God for my life, and Dr. Pierce for my health."

"Pleasant Pellets" clear the complexion.

PUBLIC LIBRARY NOTES.

A box of eighty-seven new volumes was received Tuesday. Among the books were a set of the "Stories of the Nations," series comprising sixty-one volumes elegantly bound and the "Winning of the West" in four volumes by Theodore Roosevelt, also a set of British orations. Five very interesting books were added to the boy's collection in the Sidney Carter Memorial library.

The following newspapers have been donated to our reading room and for which the library board extends thanks. A year's subscription to the Daily State Capital, donated by Mrs. F. H. Greer; the Kansas City Star, through its agent Mr. F. S. Barde; the Daily Wichita Eagle, by Mr. Boyle, and the Daily Leader, by L. G. Niblack.

Mr. Patterson, the furniture man, has our hearty thanks for a beautiful screen which he has kindly donated. It makes a handsome addition to the furnishings of our library room. Readers may secure books now on every afternoon except Mondays.

A Cashier Testifies.

Pepsin Syrup Co., Monticello, Ill.
Gentlemen:—After twenty years of aches and pains caused by constipation brought on by sedentary habits, I have found more relief in two bottles of Dr. Caldwell's Syrup Pepsin than all of the hundreds of other remedies I have tried, and I take pleasure in giving you this testimony, believing you have the best preparation made for stomach troubles. Very truly yours, D. F. Lange, Cashier Wabash R. R., East St. Louis. Sold by F. B. Little & Co.

"Those Who Dance Must Pay," Etc. (Shawnee Democrat.)

The Guthrie Leader suggests that the time has arrived when you can take your partner for the harmony quadrille. Well, Niblack, that's all right for the fellow whose appetite is effervescent with Republican pie, but what about the forsaken and forgotten fellow who has been cast into an attenuated oblivion. Do you think he will dance in the harmony quadrille?

Does It Pay to Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Boecher's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac.

No matter how old she is, a woman will always claim that a man never begins to be really dangerous till he is past her own age.

Why be shabby when the Webb Tailoring Co. is offering such inducements to be well dressed. 117 South Second street.

Phantom Party.
The Young Ladies' Guild of the Episcopal church, are having great success with the preparations of their Phantom party, which will take place next Tuesday evening at the home of Bishop Brooke. Many invitations will be sent out. The proceeds will go to the church work.

With Mrs. Van Voorhees.
The Monday Night High Five club will hold its next meeting with Mrs. Van Voorhees on next Monday night.

Big Crop Assured.
Charles F. Adams, the Buckeye Harvester representative, is in the city today, just returning from a trip over the railroad lines of Oklahoma. He says the wheat crop outlook since the rains has increased very much and will come out all right. While the art drought injured the crop somewhat in certain sections yet the damage will never be known. He says the rain was a very general one and quite heavy every where.
